Manage your office from a map

Robin's workplace experience software helps offices run more effectively with desk management, smart resource search, and interactive signage, enabling people to do their best work, faster.

Interactive tools help employees find meeting rooms and peers while office space changes sync across the platform instantly, giving your company a live view of the office.

Your office, on a map
Simple wayfinding tools for employees, saving time every day. Updates that sync within seconds.

Analytics and insights
Detailed analytics help you understand how teams are using the office and ways to improve it.

Desk management made easy
Coordinate desk moves in one sitting. Work directly on a map with drag and drop, showing changes as you go.

Workplace digital signage
Room signage shows availability and removes no-shows while status boards are live maps of the office.
