

Average US office capacity as of October: **25%**

The US saw a 16% rise in desk bookings.

Most cities are seeing growth in desk bookings, but at a lower rate than September.

SAN FRANCISCO

IT is no longer the top driver in returns for SF. Professional services take the top spot in employees returning with a nearly **40%** increase.

CHICAGO

Chicago lags behind the national average in returns with only 7% increase in employees returning. Healthcare in Chicago had a **45%** drop.

LOS ANGELES

LA's return was largely driven by financial services, professional services and IT for October. Hospitality saw a nearly **100%** decrease in employees returning.

NEW YORK+BOSTON

Northeast cities are beating the national average of employees returning to work. Boston saw a **34%** increase and NY saw a **22%** increase, compared to the **19%** national average.

RTO maintained momentum in October

19% more employees returned to the office since September's big returns.

Bounce rate increased by a slight half percent in October

- **Healthcare** had a surprisingly high **50%** bounce rate.
- **Europe** had the highest bounce rate, but has since dropped below North America.

BY INDUSTRY

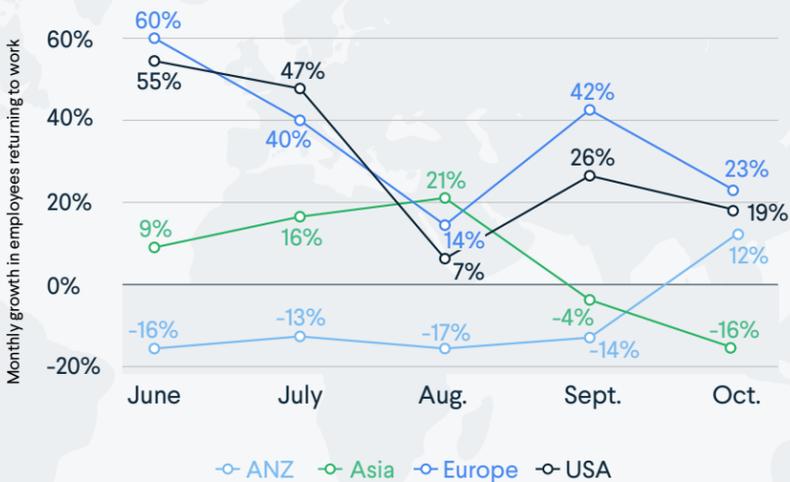

Media and telecom more than doubled the number of employees in office.

Government employees spend the most days in the office: on average about 3 days every two weeks.

IT still a big driver in returns, but **Media & Telecom** and **Nonprofit & Government** had the largest gains in desk bookings.

Real Estate had a **15%** drop in employees.

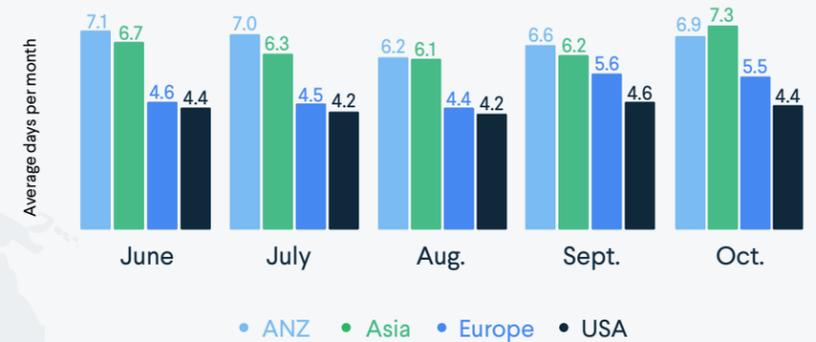

GLOBAL CHANGES

Employees returning by region

AU had its first increase in returns since the spring and reached **10-12%** office capacity.

EU had a **23%** increase in employees returning to the office, averaging 5.5 days in the office per month, slightly higher than the global average.

Average days spent in office per month
